Attached are draft documents that OWOW staff are wanting to include for David Ross' briefing package. The first document ("404g brief DR Discussion Guide.docx") is a 1.5-pager, which I understand reflects the OWOW perspective on what they want to cover/highlight during tomorrow's briefing.

Subject: Current draft of briefing for Dave Ross - do not distribute

Hi,

I got the okay to share with you (OGC and R4) the attached briefing for Dave Ross on 404 assumption issues (and the background/attachment materials). This reflects John Goodin's input. I can only hope they read the attachments as there is not enough time to cover all that we need decisions on in the timeframe allotted. This is the direction/format I've been given for the DR briefings – one pager of discussion topics with background materials.

Tom, please note the Administrator briefing materials are even more truncated. Still finalizing a basic version to send you.

So, attached is all that John received. I am suggesting we not send forward the assumable waters exec summary but just send forward the FACA letter. I'd be okay with dropping both, but John wants them. Additionally, we will only send forward one appendix on ESA, just not sure what level of detail John wants to send forward.

Anyway, this is what I have. Trying to keep you in the loop as this is a moving target. - Kathy
